A. I. CENTRAL OFFICE

CATALOGUE OF PRINCIPAL PUBLICATIONS

This Catalogue of Principal Publications is issued once every year to enable government officials and
the public at large to learn what new publications have been issued by the Government of India during
the previous year. It also gives a brief account of the principal publications issued by the various
Ministries and Comptroller and Auditor General of India and their subordinate departments, and
by the various State governments. The Catalogue is intended to give a general idea of the publications
issued by the Government of India and its various departments, and to facilitate the use of these publications
by the public. It will also help the public to get information about the publications issued by the
various State governments and their subordinate departments.

This Catalogue presents an outline of the contents and nature of the principal Central Office publications. The general publications (Official Year Book, Pocket Compendium, etc.) are described first (pages 3-4); then follow the annual bulletins or reports on demography, finance, production, overseas trade, transport and communication, and labour, employment and prices, together with certain more important mimeographed bulletins whose content is not treated so comprehensively elsewhere (pages 9-11); next are the 1966 and 1971 Censuses of Population and Housing publications; and finally other publications, comprising the retail establishments, wholesale establishments and motor vehicle census publications. Reference numbers following the title of each publication relate to the complete list of *all* current and recent Central Office publications on pages 17-31.

A I. CATALOGUE OF PRINCIPAL PUBLICATIONS ISSUED BY THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

GENERAL PUBLICATIONS

OFFICIAL YEAR BOOK OF THE COMMONWEALTH OF AUSTRALIA (I.1)

The principal general reference work of the Bureau's Central Office. Provides a comprehensive and fairly detailed statistical review of all aspects of the economy and social conditions of Australia for which official statistics are available. Statistical material, illustrated by graphs and maps, is presented in chapters dealing specifically with: population; vital statistics; housing and building; labour, wages and prices; overseas transactions; transport, communication and travel; welfare services; public health; law, order and public safety; national accounts; private finance; public finance; education, cultural activities and research; employment and unemployment; manufacturing industry; rural industry; water conservation and irrigation; forestry; fisheries; mineral industry; electric power and generation; the Territories of Australia. Contains also descriptive matter dealing with Australia's history, geography, physiography, climate and meteorology, government, defence services, repatriation and international relations. Among items included in the current issue (No. 58, 1972) are the complete text of the Constitution of the Commonwealth, a diary of principal economic events for the year 1971-72, a chronological table of chief events, 1955 to 1972, and a statistical summary of selected items and years over the period 1901 to 1972. New or revised material in this issue includes: population projections to the year 2000; results of the May 1971 survey of weekly earnings; a note on the activities of the Australian Transport Advisory Council; results of surveys of age, invalid and widow pensioners conducted in 1970 and 1971; an article on metric conversion in Australia; the Appendix contains preliminary results from the 1971 Census of Population and Housing; summary statistics from a new series of surveys of overseas borrowing.

POCKET COMPENDIUM OF AUSTRALIAN STATISTICS (I.2)

A pocket year book, emulating the Year Book in comprehensiveness without the detail. Concentrates on 'basic' statistics, its aim being to provide something in all statistical fields, so that the inquirer can obtain an idea of the order of magnitude or relative importance of a subject. Contains the names of current holders of vice-regal positions, members of the Commonwealth Parliament, the Commonwealth Ministry; a chronological table of events of historical importance from 1770; and lists of Bureau publications, postal rates and public holidays.

QUARTERLY SUMMARY OF AUSTRALIAN STATISTICS (I.3)

A comprehensive quarterly publication intended primarily for the issue of annual and other cumulative series, it contains a wide range of economic and social statistics, differing in respect of the latter from the *Monthly Review of Business Statistics*, which is restricted mainly to economic indicators. It is the earliest general publication in which a number of series appear, and is therefore a handy reference for the latest statistics available in a wide variety of fields.

MONTHLY REVIEW OF BUSINESS STATISTICS (I.4)

Contains a comprehensive range of monthly and quarterly economic series, including seasonally adjusted series, covering employment, internal and overseas trade, prices and wages, building and production, transport and communication, national accounts, balance of payments, and finance, showing figures for up to ten years and twenty-six months.

DIGEST OF CURRENT ECONOMIC STATISTICS (1.5)

Contains eighty-nine selected monthly or quarterly economic indicators, most of which are shown in original and seasonally adjusted form. Provides an up-to-date review of the most recent statistics available, and generally appears during the last week of each month with figures up to the previous month.

SEASONALLY ADJUSTED INDICATORS (1.10)

Contains original and seasonally adjusted data in tabular and graphical form for selected series of statistical indicators of Australian economic activity. The seasonal adjustment of these series is intended to serve as an aid in statistical interpretation and analysis. Later figures in the series, and other series being seasonally adjusted, are published in the *Monthly Review of Business Statistics*, the *Digest of Current Economic Statistics*, and in other monthly and quarterly publications of the Bureau. The purposes of the publication are to provide a comprehensive long-term series of both original and seasonally adjusted data and to give a detailed description of the methods of adjustment used. The bulletin is issued annually, following annual re-analyses of the series.

NORTHERN TERRITORY STATISTICAL SUMMARY (1.6)

Annual publication in which are assembled all available official statistics for the Northern Territory. Contains also a chronological table of events, a list of representatives and officials and a list of ordinances and regulations promulgated during latest year.

AUSTRALIAN CAPITAL TERRITORY STATISTICAL SUMMARY (1.7)

Similar in purpose and design to the preceding publication; features a long-term table, wherever practicable, in each statistical field. Contains a chronological table of events and a list of ordinances and regulations promulgated during latest year.

ANNUAL BULLETINS OR REPORTS**DEMOGRAPHY (4.9)**

Annual detailed bulletin of statistics on population, overseas arrivals and departures, marriages, divorces, births, deaths (but see also *Causes of Death*), population and vital statistics of the External Territories, and Australian Life Tables. Information is shown for each sex; for each State and Territory; and for varying runs of years; but not all information is presented in this detail—in more complex tables cross-classification is limited to Australia as a whole for the most recent year.* Contains a statistical summary with a series of long-term tables extending back to 1901, also several graphs on major features.

CAUSES OF DEATH (4.7)

Annual detailed bulletin showing causes of death classified according to the International Classification of Diseases of the World Health Organization. Information by the detailed list of the ICD is shown by sex and age-group (both numbers and rates) and State or Territory of registration. An abbreviated list of the ICD is used to show information by sex, age-group, State or Territory of registration, and month of registration. Separate tables are devoted to infant mortality and age-specific death rates. This bulletin rather than *Demography* should be referred to for information on causes, although *Demography* contains abbreviated tables showing numbers, age groups and rates.

* This is common practice in Bulletins.

A III. CENTRAL OFFICE

**SUBJECT INDEX
TO PUBLICATIONS**

A III. SUBJECT INDEX TO PUBLICATIONS OF THE CENTRAL OFFICE OF THE COMMONWEALTH BUREAU OF CENSUS AND STATISTICS

This index is designed to show in which Central Office publications information on various subjects is to be found, and to serve as an aid in the selection and ordering of the appropriate publication required. *The index is not intended as a comprehensive index of commodities or items, and items of production and of overseas trade, for example, are therefore largely omitted.* The Table of Contents or Index to the relevant publication itself provides this further reference.

Because of the comprehensive range of statistics contained in the *Official Year Book of the Commonwealth of Australia* and in the *Pocket Compendium of Australian Statistics*, no references are given to them in this index, since they would have to be included for virtually every item therein. Each of these publications contains a detailed index, and the former should be regarded as the principal general statistical reference work produced by the Central Office of this Bureau. No references are given to the Northern Territory and the Australian Capital Territory Statistical Summaries, which contain a comprehensive range of statistics for those Territories, or to the folder *Australia at a Glance*, which gives a concise statistical summary for Australia.

Where more than one reference to a subject is given, the chief reference, wherever it has been possible to determine it, is indicated by bold type. Two or more references to a subject so indicated signify major, and approximately equal, importance. A number in brackets following 12.16 refers to the particular issue of the Production Summary dealing with the subject indexed.
